

Who We Are

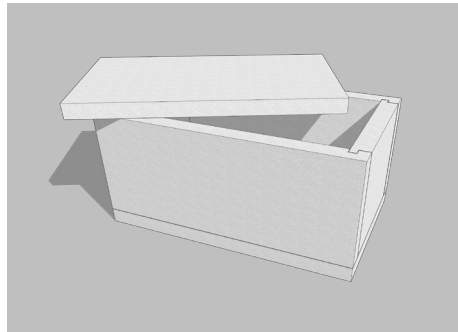

- We have a combined 60-year history and proven track record to address our customers' needs.
- What began as six regional businesses has become an international network of designers, engineers, manufacturers and specialists working as one to provide unmatched service and support to our customers.
- We are leading the way in custom foam solutions across North America. Our extensive range of solutions include protective packaging, construction products, cold-chain, geofoam, OEM components, sustainable foams, and more. Be it block and fabrication, shape-molding, or an integrated solution, nobody combines it all like Alleguard.

Molded Coolers

- Lightweight
- Shock-absorbent
- Cost-effective
- Maintains temperature

Six-Panel Box Liners

- Cost-effective
- Maintains temperature
- Customizable
- Recyclable

XDS Solutions

- Extended Duration Shipping containers
- Sustainable
- Cost-effective

Custom Cold Chain

- Ensures product integrity
- Cost-effective
- Completely customizable
- Wide variety of applications

Our cold chain packaging solutions are **100% recyclable** and offer lightweight, cost-effective temperature control that maintains the integrity of frozen, refrigerated, perishable, and temperature-sensitive products. Whether your product is kitted or requires gel packs, we can design and create the total packout that's perfect for your product. Our custom solutions are third-party tested at ISTA certified labs to ensure effectiveness.

Sustainability

Sustainability is one of our top priorities. We're driven to identify new environmentally advantageous materials and methods of production and operating.

EPS helps create a more sustainable world by making buildings more energy efficient, reducing greenhouse gas emissions, preventing product damage and waste, and reducing shipping fuel usage, just to name a few.

We pride ourselves on being good stewards of our environment and customers' visions.
