Size (sq.ft.)	86,422 sq. ft.
Floors:	5 storey
Distributor:	SalDan General Contractors Inc.
Product(s) Used:	Amvic™ ICF

Q+A:

Q. What was the major benefit of using Amvic™ ICF over traditional construction methods? Describe how this project maximizes the advantages of ICF construction.

A. "ICF construction guarantees high-quality materials and precise design details, enhancing building safety, improving sound insulation for tenant comfort, and reducing maintenance needs. Over time, there will be fewer issues and lower upkeep costs, helping building management save compared to conventional buildings and a better stable return investment."

Alleguard Advantage

- Rigid continuous insulation
- Speed and ease of installation
- Energy-efficient and sustainable
- Lightweight, durable and easy to handle
- Innovative insulation solutions

Contractor Quote

"We have a trusted long-term relationship with Alleguard as we have been building with their products for several years. We have our own crews to install the ICF and cast in place concrete, so we are very familiar and comfortable building with ICF. Alleguard has always provided wonderful technical service and has consistently met our required timelines to meet our completion dates."
